

MAINTENANCE CHEMICALS FOR INDUSTRY

FOOD CONTACT

Dear Sirs

Ref.: Status of Gard products under food contact regulations

We hereby confirm the status according to food contact regulations as follows:

GARDOL® in its composition meets the FDA recommendation 175.105.

This means that the product is suitable for use in the packaging of food with indirect food contact.

We are always at your disposal to answer any further questions and remain,

with Best Regards

Peter Atkinson
Technical Manager
